

Weekly Results: Aug 13 - Aug 19, 2023

Total Samples = 102

Down, 49 samples:

- Average concentration of fentanyl: **10.2%**
 - Average for July: **9.9%**
- **29** samples contained fluorofentanyl (median: **10.5%**, range: **0.2% - 36%**)
- **6** samples contained heroin (median: **43.2%**, range: **2.1% - >80%**)
 - **4** of these samples also contained acetylcodeine (median: **9.3%**) and acetylmorphine (median: **2.6%**)
- **0** samples contained carfentanil
- **8** samples contained xylazine (median: **6.9%**)
- **47%** of samples contained benzos
 - Bromazolam, **20** samples (median: **1.3%**)

Cocaine (Hard & Soft), 13 samples:

- **13** samples were cocaine, no cuts detected* (2 cocaine base/hard, 11 cocaine HCl/powder)

Meth (Side), 4 samples:

- **4** samples were meth, no cuts detected*

MDMA / MDA, 18 samples:

- **16** samples were MDMA, no cuts detected*
- **2** samples were MDA, no cuts detected*

Other Drugs:

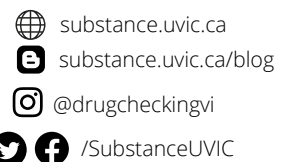

- **1** sample was 2C-B, no cuts detected*
- **6** samples were ketamine, no cuts detected*
- **1** sample was LSD, no cuts detected*
- **1** sample was oxycodone and acetaminophen (percocet), as expected
- **1** expected oxycodone ("M30 oxycontin") pill contained metonitazene instead. Metonitazene is a synthetic opioid thought to be similar in strength to fentanyl

Community News:

- **Down:** Fine red powder. When cooked, turned light brown. When smoked was very harsh on the throat. Effects were somewhat stronger than expected. Bought north of downtown.
- **Down:** Small purple pebbles. Smoked well, but no effects were felt. Reporter writes, "smoked a half ball and didn't feel any effects". Bought north of downtown.
- **Down:** Small purple and red pebbles with powder. When cooked, turned clear. Was very harsh to smoke. Had intense, strong effects. Bought north of downtown.
- **Side:** Large clear crystal shards. When cooked, turned a clear/brown colour. Was smooth to smoke. Effects were somewhat stronger than expected but nothing unusual. Bought north of downtown.
- **Down:** Large turquoise chunks. When cooked, turned a light brown colour and congealed quickly. Had a fenty taste when smoked and produced a powdery white residue. Effects as expected, nothing unusual. Bought around North Park area.

Where to Find Us:

1802 Cook Street, Victoria, BC
Monday - Saturday, 12-7 PM
Call or text: 250 - 415 - 7637

* While no cuts were *detected*, this does not mean these samples were "pure". Impurities likely exist at concentrations below our limits of detection.
