

# Weekly Results: Sep 04 - Sep 09, 2023

Total Samples = 208

## Down (Opioids) & Sedatives, 79 samples

### Down (Opioids)

- Median fentanyl concentration of 5.2% (59 samples)
- Fluorofentanyl found in 46 samples at a median concentration of 18.6%
- Benzos were found in 41.4% of down samples
  - Bromazolam was found in 22 samples at a median concentration of 5.3%
  - Etizolam was found in 2 samples
- Xylazine was found in 1 sample at a concentration of 0.3%
- Carfentanil was found in 1 sample at a concentration of 0.2%

### Benzos

- 1 bromazolam sample was as expected\*

### Other

- Nitromethaqualone found in 2 samples expected to be Methaqualone
- 2 Oxycodone samples were as expected\*
- Metonitazine was found in 1 expected oxycodone sample

## Uppers, 44 samples

### Crack & Cocaine

- 6 crack samples were as expected\*
- 23 cocaine samples were as expected\*
- Phenacetin found in 1 crack sample
- Levamisole found in 6 cocaine samples

### Methamphetamine

- All 5 samples were as expected\*

## Psychedelics & Dissociatives, 76 samples

### MDMA

- 44 out of 49 MDMA samples were as expected\*
- 5 samples contained other actives such as crack, MDA, and ketamine

### Ketamine

- All 5 ketamine samples were as expected\*

## Psychedelics & Dissociatives Continued

### LSD

- All 5 LSD samples were as expected\*

### Other

- Several other less commonly seen psychedelics (2C-T-2, 4-AcO-DMT, 5-MeO-DMT, ALD-52, & DOM) were as expected\*

## Sample Spotlight

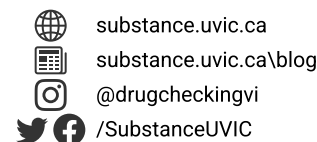

- 1 expected oxycodone sample was found to be metonitazine, which is reportedly 15x stronger than oxycodone when consumed orally
- 1 sample was found to be 4-MEC, a 2nd generation substituted cathinone
- 1 expected MDMA sample was found to contain MDMA, MDA, and crack

## Community News

- **Down:** Big red chunks. When cooked, congealed slowly. When smoked, produced a clear resin. The same effects as expected. Bought north of downtown.
- **Down:** Small pink pebbles. When cooked congealed quickly and turned a brown colour. The same effects as expected. Bought north of downtown.
- **Down:** Brown flakes. When cooked, stayed a brown colour. Generally as expected but a little bit stronger. Felt like a benzo was present. Bought in Victoria.
- **Down:** Small green pebbles. Stayed green when cooked. When smoked, it tasted good. Generally as expected but a little bit stronger. Felt like a benzo was present. Bought in Victoria.
