

Weekly Results: Oct 30 - Nov 04, 2023

Total Samples = 127

Down (Opioids) & Sedatives, 55 samples

Down (Opioids) - 53 samples

- 47 samples contained fentanyl at a median concentration of 12.9% (concentrations ranged from 0.1% to greater than 80%)
- 39 samples contained fluorofentanyl at a median concentration of 6.2% (concentrations ranged from 0.2% to greater than 40%)
- 1 sample contained xylazine at a concentration of 0.1%
- 0 samples contained carfentanyl
- 1 sample contained heroin at a concentration of 4.1%
- 43% (23/53) of down samples contained a benzodiazepine
 - 19 samples contained bromazolam at a median concentration of 3.7% (concentrations ranged from less than 0.1% to greater than 25%)
 - 3 samples contained an undifferentiated benzodiazepine
 - 1 sample contained flualprazolam at a concentration of 0.3%

Other - 2 samples

- 1 sample was was percocet (oxycodone & acetaminophen), no cuts detected*
- 1 sample was n-pyrrolidino etonitazene, instead of oxycodone

Stimulants, 41 samples

Crack & Cocaine - 14 samples

- 2 samples were crack, no cuts detected*
- 1 sample contained fentanyl or an analogue, in addition to crack
- 9 samples were cocaine, no cuts detected*
- 2 samples were cocaine, cut with levamisole

Methamphetamine - 6 samples

- 5 samples were methamphetamine, no cuts detected*
- 1 sample was methamphetamine, cut with lidocaine

Stimulants Continued

MDMA/MDA - 20 samples

- 16 samples were MDMA, no cuts detected
- 2 samples were MDA, in addition to MDMA
- 2 samples were MDA, instead of MDMA

Other - 1 samples

- 1 sample was 3-MMC, no cuts detected*

Psychedelics & Dissociatives, 15 samples

Psychedelics - 4 samples

- 1 sample was 2C-B, no cuts detected
- 1 sample was DMT, no cuts detected
- 4 samples were LSD, no cuts detected

Dissociatives - 9 samples

- 7 samples were ketamine, no cuts detected*
- 2 samples were cocaine, instead of ketamine

Community News

- **Down:** Big reddish brown chunks. When cooked, congealed quickly. When smoked, produced a golden resin. Effects were somewhat weaker than expected and it also felt like a benzo was present. Bought north of Downtown.
- **Down:** Purple powder. When cooked, turned light brown. When smoked, was a bit harsh and produced a purple resin. Effects were somewhat stronger than expected.
- **Down:** Large dark brown chunks. Cooked well and turned a dark red/brown colour. When smoked, melted well. Effects as expected, did not cause overdose with the reporter when consumed. Bought in the North Park area.
- **Down:** Large beige chunks. When smoked, had a good flavour. Nothing unexpected to report, usual effects. Bought in Burnside-Gorge area.
